Company Introduction

EP Civil & Earthmoving Pty Ltd is an established civil construction firm which has been operating over the last 18 years throughout Port Lincoln, Eyre Peninsula and the northern areas of the state.

We carry out work for Private Clients, Government Departments, Statutory Authorities and Local Government.

EP Civil and Earthmoving Pty Ltd is committed to supplying all clients with quality and a product that is fit for use and has the desired quality in accordance with the customer's requirements and specifications.

Management recognises and accepts its obligations to provide a safe, healthy and efficient working environment for all its employees and sub-contractors.

As a part of our commitment to the broader community, we have established an Environmental Policy and will work towards minimising the impact of our operations on the environment to the level acceptable to current legislation and community expectations.

The organisation as part of its Risk Management process uses the IMS processes to ensure that appropriate planning of all operations. This is demonstrated in the development of a Project Management Plan (Project IMS) which is developed for each individual project.

Scope of the Integrated Management System (IMS)

This IMS is applicable to all of our activities on the project and all staff and subcontractors are required to comply with the processes and controls described.

The IMS meets the requirements of the national and international standards for Occupational Health and Safety (AS/NZS 45001:2018), Environmental (AS/NZS ISO 14001:2015) Quality Assurance (AS/NZS ISO 9001:2015) & Risk Management (AS/NZS ISO 3100:2009).

Company Policy & Objectives

Our aim is to demonstrate and ensure safety, environmental and quality compliance with legislation using a system that follows AS/NZS 45001, AS/NZS ISO 14001, AS/NZS ISO 9001 and AS/NZS ISO 3100, together with the standards specified in relevant contracts, codes of practice and other relevant requirements.

Input and involvement of all staff and stakeholders is essential and must be sought when identifying and mitigating workplace hazards and risks in order to achieve a safe work place and an environmentally sustainable environment. Management must ensure that all staff and contractors are to be inducted so they become familiar with project processes and risk management techniques

The company policy is to,

- Work Profitably with all our clients
- Work with all our clients in an ethical and legal manner with written contract agreements
- Deliver our projects to clients on time and one budget with the intention of satisfying the expectation of the client
- Maintain a level of customer focus with the public that the clients and authorities would be expected to provide themselves
- Provide evidence when requested, that all works have been constructed in accordance with the contract specified requirements
- Use toolbox meetings with employees and the client with the aim of working safely and without damage to the environment on all projects
- Use professional advice where necessary to ensure that our company satisfies the legal requirements of the Health and Safety and Environmental Protection Acts and other legislation or legal requirements covering the projects we work on.

In order to achieve our objective of promoting safety, environmental and quality awareness and to optimise client satisfaction on our projects, we:

- Set measurable objectives and targets
- Focus on these at every level
- Eliminate work related injuries, illnesses and pollution
- Ensure that all staff and contractors understand our policy and their responsibility in maintaining the highest levels of performance

Our Objectives are to -

- Comply with certification criteria and the relevant prequalification requirements with the clients we work with,
- Maintain or target an increase in profit each year by reducing rework and minimising waste in all processes,
- Keep up with technology, plant and equipment changes,
- Target improvement in staff and employees competency by ongoing training,
- Provide a level of quality in our work, that is not less than that specified within the contract, and aims to meet the clients expectations
- Have zero workplace Notifiable incidents and less lost time injuries than is annually targeted by the company through ongoing consultation on WHS matters
- Have zero reportable environmental breaches. To not increase any form of pollution in the vicinity of the project. Work with the client to improve the environmental integrity of the area in which we are to be working.
- Ensure our suppliers and subcontractors operate with the same objectives in mind, and
- Strive for continual improvement in service delivery through reviews and measurement of defect notices

We can achieve this by having a suitable trained, competent and committed workforce who know and understand the company objectives and operations of our Management System.

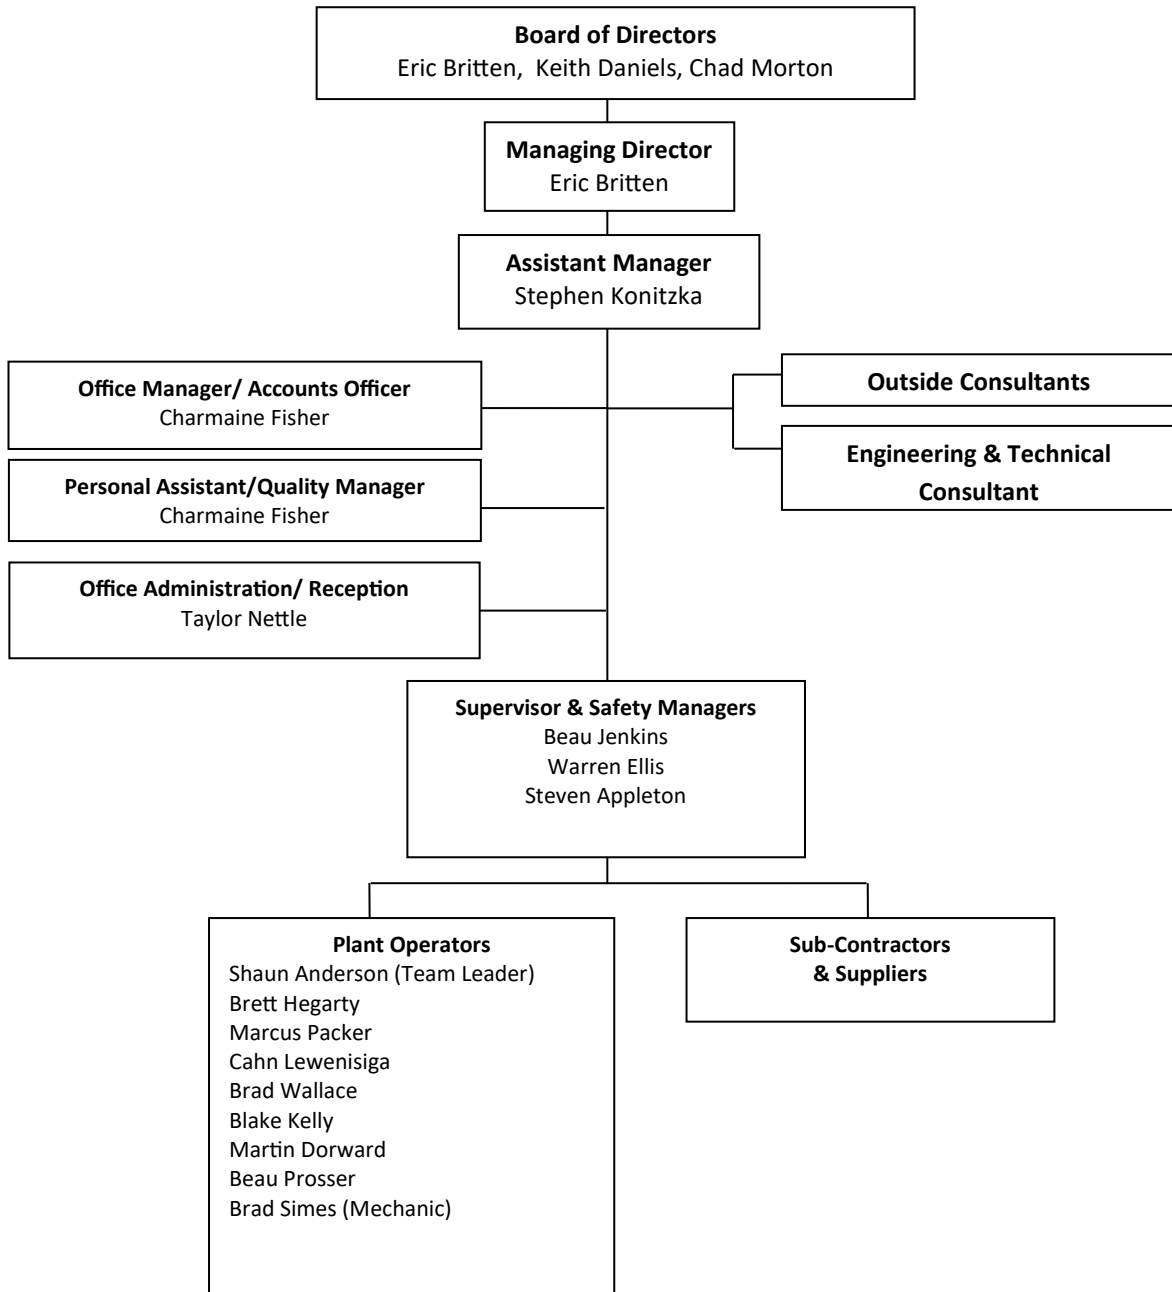

We continuously monitor the IMS through System, Guidelines and Management Review to ensure its ongoing suitability and improve our operations to achieve excellent safety, environmental, quality and cost standards. This enables us to respond to any client concerns in an efficient and effective manner, ensuring client satisfaction.

Management must regularly review this policy and the IMS as a whole to ensure that it remains relevant and appropriate. This policy is available to interested parties on request.

Managing Director

Company Organisation

WHS Definitions

Person conducting a business or undertaking (PCBU) Definition

A PCBU conducts a business or undertaking alone or with others, who can be a corporation, an association a partnership or sole trader (i.e. the entity, company). If someone is engaged solely as a worker or an officer, and is only responsible for implementing decisions made by the PCBU, that person is not a PCBU.

PCBUs are generally represented by officers of the corporation, who make decisions, or participate in making decisions, that affect the whole, or a substantial part, of the business or undertaking, and has the capacity to significantly affect the financial standing of the business or undertaking (Section 9, Corporations Act 2001).

Worker Definition

A worker includes employees, volunteers, contractors, sub-contractors, apprentices, work experience students and outworkers.

Definition of "Other Persons"

An "other person" is a person who is not a worker or officer of the EP Civil & Earthmoving, for example a visitor to the workplace or a member of the public.

Workplace Definition

The term 'workplace' includes any place where a worker goes or is likely to go while at work.

EP Civil & Earthmoving 's Duty of Care

EP Civil & Earthmoving must ensure the following 'Duties of Care' are fulfilled by ensuring so far as reasonably practicable:

- the health and safety of:
 - workers by EP Civil & Earthmoving and
 - workers whose activities in carrying out work are influenced or directed by the EP Civil & Earthmoving.
- that the health and safety of other persons is not put at risk from work carried out
- That there are adequate provisions for and maintenance of a workplace environment that is without risks to health and safety
- There are provisions for and maintenance of safe plant and structures
- There are provisions for and maintenance of safe systems of work
- There are systems of work that ensure the safe use, handling, storage and transport of plant, equipment, materials, structures and hazardous substances
- There are provisions for adequate facilities for the welfare of workers when they are carrying out work for EP Civil & Earthmoving.
- There are provisions of any information, training, instruction or supervision that is necessary to protect all people from risks to their health and safety arising from work carried out as part of the conduct of the business
- There is suitable monitoring of the workplaces under its control to identify hazards and risks, to prevent workers from becoming ill or sustaining injuries
- That it consults, cooperates and co-ordinates activities with other duty holders where more than one duty holder is responsible for the same work health and safety matter to ensure that duty holders work together.

Company Roles & Responsibilities

Company Officers (e.g. Directors, Managers)

Under Section 9 of the *Corporations Act 2001*, an Officer includes, in addition to Directors, someone who makes decisions that affect the whole or substantial part, of a business or undertaking or who has the capacity to significantly affect the financial standing of the business.

Company Officers have a positive duty to exercise due diligence to ensure compliance. To this they must:

- Gain an understanding of the nature of the business operations and generally of the hazards and risks associated with those operations;
- Acquire current knowledge of work health and safety matters;
- Ensure there are appropriate processes for receiving and considering; information regarding incidents, hazards and risks, and responding in a timely manner to that information;
- Ensure there are adequate processes in place to comply with legislative responsibilities, and that these are effectively implemented;
- Ensure adequate human and physical resources are available to enable the business to meet its systems, projects and legal obligations, to enable hazards that are associated with the operations of the business, to be identified, and the risks associated with those hazards to be eliminated or minimised; and
- Verify the provision and use of the resources and processes to ensure the dot points above.

Manager (Site Safety Manager & Environmental Coordinator)

The Manager is responsible for:

- The preparation and review of quotes and tenders,
- Final review and negotiation of the contract, signing contracts and agreements.
- Appointment and engagement of staff;
- Media liaison;
- Assessing subcontractor and supplier ability to meet project needs
- Ensuring that, when working as a subcontractor, that the Principal Contractor fulfils its legislative requirements regarding health and safety matters
- Appointing subcontractors, suppliers, consultants and project staff
- Appointing project Supervisors and Site Safety and Environmental Officers to run projects
- Authorise the subcontract or supplier order
- Programming and coordinating work and resources
- Preparation and review of the IMS and associated documents with other Directors and selected staff to ensure its ongoing effectiveness and application meets the policy and objectives of the business
- Authorising the IMS and associated documents for issue and implementation
- Quality, WHS&E risk analysis prior to commencing work
- Investigation, compilation and lodgement of appropriate reports to the relevant authorities in accordance with legislative requirements.
- Review and surveillance of internal, subcontractor and supplier activities
- Induction and assessment of new staff and project personnel including sub-contractors and other relevant parties
- Verification of sub-contractors competencies
- Project progress and cost control reporting and claims
- Ensuring all relevant WHS matters are reported in accordance with the system and legislative requirements
- Attending and running if necessary Toolbox meetings and particularly the safety issues of the meeting

Company Roles & Responsibilities

Assistant Manager (Site Safety Manager & Environmental Coordinator)

The Assistant Manager is responsible for:

- The preparation and review of quotes and tenders,
- Final review and negotiation of the contract, signing contracts and agreements.
- Appointment and engagement of staff;
- Assessing subcontractor and supplier ability to meet project needs
- Ensuring that, when working as a subcontractor, that the Principal Contractor fulfils its legislative requirements regarding health and safety matters
- Appointing subcontractors, suppliers, consultants and project staff
- Appointing project Supervisors and Site Safety and Environmental Officers to run projects
- Authorise the subcontract or supplier order
- Programming and coordinating work and resources
- Quality, WHS&E risk analysis prior to commencing work
- Investigation, compilation and lodgement of appropriate reports to the relevant authorities in accordance with legislative requirements.
- Review and surveillance of internal, subcontractor and supplier activities
- Induction and assessment of new staff and project personnel including sub-contractors and other relevant parties
- Verification of sub-contractors competencies
- Project progress and cost control reporting and claims
- Ensuring all relevant WHS matters are reported in accordance with the system and legislative requirements
- Attending and running if necessary Toolbox meetings and particularly the safety issues of the meeting

Supervisor (Site Safety Officer/Environmental Coordinator)

The Supervisor is responsible for:

- Managing the construction process including the site management and administration
- Programming, running and recording the details of all Toolbox Meetings ensuring the rights of employees/subcontractors to have input on WHS matters, and ensuring the safety issues of the meetings are particularly covered
- Identifying safety issues requiring attention and reporting to the manager
- Inspections and tests as per Inspection and Test Plans
- WHS Hazard identification and preparation of the analysis and control methods with the manager and relevant staff and/or sub-contractors
- Environmental impact identification and preparation of the environmental analysis and control methods.
- Surveillance of subcontractors' and suppliers work, plant and materials delivered.
- Establishing and maintaining registers for all Dangerous and Hazardous Goods, Plant and Equipment etc. on-site.
- Implementing and monitoring WHS requirements and controls in the workplace as set out in the IMS.
- Where WHS requirements and controls require change, consult with relevant employees/subcontractors in developing new processes.
- Implementing the environmental requirements and controls in the workplace as set out in the IMS or action plan.
- Day to day site management and administration, including general amenities cleanliness and litter management
- Maintain a Daily Diary to record daily site occurrences, report progress and explain any delays or hold-ups especially those that could affect the continuity of scheduled work.
- First aid on the project to workers and subcontractors and public if effected as a result of the work.
- Monitoring of the safety and environmental controls where the risk is serious enough to require monitoring
- Co-ordinate regular workplace inspections to assist in the monitoring of safety controls and the identification of hazards on site. Ensuring the application of company policy and procedures at the project level.

Company Roles & Responsibilities

Quality Manager

The Quality Manager is responsible for ensuring that:

- The requirements of AS/NZS ISO 9001, AS/NZS ISO 14001, AS/NZS ISO 3100 and AS/NZS 45001 are followed as required
- Ensure IMS and associated documents are reviewed and approved prior to implementation
- The IMS is understood, implemented and maintained by staff. This is achieved through reviewing all aspects of the system on a regular basis
- Where tasks relating to the maintenance of documentation, files, forms and other records are transferred to the Administration Officer or others, these tasks are understood and carried out satisfactorily
- The internal review process is scheduled, coordinated and carried out in an appropriate and independent manner.
- Reports are presented to the Management Review on the effectiveness of the application of the IMS
- All dangerous / Notifiable reported defects / incidents are investigated, rectified and if necessary, referred to the improvement process.
- Shall ensure applicable legal and other requirements are taken into account when developing, implementing and maintaining process control documents and the IMS.
- Monitoring changes and industry trends in Work Health and Safety legislation and its application in the industry,
- Provide regular reports to the Directors and site on WHS performance and matter

Administration Officer

The Administration Officer is responsible for ensuring that

- The IMS is maintained and all documents and folders are filed, stored or archived in a suitable manner allowing them to be readily retrieved when required,
- The Quality Manager has sufficient support from the Administration Officer to satisfy any responsibilities in the application of the IMS,
- Records of completed activities are filed such that they are protected, remain legible, readily identifiable and retrievable with retention time and disposal method defined,
- Subscriptions are maintained to ensure current / relevant information relating to legislation, regulations and other relevant data is available,
- Record and compile relevant information and data pertaining to WHS to assist in the development of performance reports

Accounts Officer

The Accounts Officer is responsible for ensuring that

- All calculations and records of employees' wages and payments are kept,
- Project cost control reporting,
- Collating and recording these costs from the timesheets and invoices etc.,
- Payments of accounts & payroll related accounts

Field Personnel

The Field Personnel are responsible for:

- Complying with, and ensuring the application of company policy and procedures at the project level.
- Conducting their work in accordance with any IMS and legal requirements
- Reporting any identified hazards, unsafe acts or incidents to management.
- First aid on the project to other workers and subcontractors and public if effected as a result of the work.

- ✓ Safety Management
- ✓ Incident Management—Reporting & Investigation
- ✓ Environmental Management
- ✓ Plant and Equipment Maintenance
- ✓ Calibration
- ✓ Assessment of Suppliers/Sub-Contractors
- ✓ Controlling Documents
- ✓ Record and File Management
- ✓ Review & Improvement
- ✓ Internal Review
- ✓ Training
- ✓ Sustainability Management
- ✓ WHS Performance Reporting
- ✓ WHS Issue Resolution
- ✓ Sample EMP - General Construction Works

Services

We offer a wide range of services, suited for any job big or small:

- ✓ Site Works, including House, Commercial & Industrial Buildings
- ✓ Roads, Footpaths & Car Park Construction
- ✓ Sub-divisions
- ✓ Stormwater Drainage
- ✓ Water Mains Construction
- ✓ Sewer Drainage
- ✓ Electrical Trenching
- ✓ Telecommunication Trenching, Pit & Pipe Installation
- ✓ Demolition Works
- ✓ Concrete & Bitumen Cutting
- ✓ Driveway Construction
- ✓ Site Classifications
- ✓ On-Site Wastewater Disposal Testing (Percolation Test)
- ✓ Retaining Wall Construction

Veolia - Glenfield Landfill Bulk Earthworks Cell 2

Plant & Equipment

- ✓ Excavators - 1.8 Ton, 4 Ton, 5 Ton, 11 Ton, 14 Ton, 22 Ton & 24 Ton
- ✓ Backhoes
- ✓ Rollers
- ✓ Semi Tip Truck
- ✓ Tandem Tip Trucks
- ✓ Tip Trucks
- ✓ 10,000 Litre Water Truck
- ✓ Semi Float
- ✓ Beaver Tail Trailers
- ✓ Skid Steers—Attachments: Slasher, Profiler, Trencher, Grader, Auger
- ✓ Graders (12M—including Trimble 3D GPS System)
- ✓ D6 Dozer
- ✓ Concrete Saw
- ✓ Trenching Machines—Astec 560 Trencher, Case 660 Trencher, Ditchwitch Rock Saw
- ✓ Wood Chipper
- ✓ Vermeer Vacuum Trailer
- ✓ Portable Traffic Lights

Previous Relevant Experience

EP Civil and Earthmoving Pty Ltd was established in April 2006 and is a young company. However EP Civil has attained all the Civil Construction accreditations and staff are experienced with Civil Construction backgrounds.

Certificate of registration

Return to Work Act 2014

Employer number 21236907
Employer name E P Civil & Earthmoving Pty Ltd
Trading name E P Civil & Earthmoving Pty Ltd

Date of issue: 6 July 2023

Statement of coverage valid until 30 June 2024

This employer is registered as an employer under the *Return to Work Act 2014* (the Act).

E P Civil & Earthmoving Pty Ltd is registered from 21/04/2006.

The information provided in this Certificate of registration is correct at the date of issue.

Important information

A certificate of registration is issued in South Australia to certify that an employer is registered under the Act. This certification is valid until 30 June 2024 or until E P Civil & Earthmoving Pty Ltd ceases to be an employer who is required to be registered under the Act.

If there are any errors on this form, please inform ReturnToWorkSA within 30 calendar days. If you do not do this, under section 165(6) of the Act a maximum penalty of \$5,000 may apply.

A copy of this certificate must be produced within 30 days where requested by a person authorised under section 165(8) of the Act. A maximum penalty of \$1,000 under section 165(3) of the Act may apply.

A person who fraudulently alters a certificate of registration issued under section 165 of the Act is guilty of an offence. A maximum penalty of \$25,000 under section 165(5) of the Act may apply.

If you require any further assistance or information, please contact ReturnToWorkSA on 13 18 55 or by email to info@rtwsa.com.
